Representing Science for tomorrow

# Satisfy the desire for lasting beauty

Azzalure® is indicated for the treatment of glabellar lines\*1

- Fast onset of action (2-3 days)<sup>1</sup>
- Long duration of action (up to 5 months)<sup>1</sup>
- High level of patient satisfaction with treatment every 6 months<sup>2</sup>
- Well established safety profile<sup>1-3</sup>

**NAME OF THE MEDICINAL PRODUCT:** Azzalure, 10 Speywood units/0.05ml, powder for solution for injection. **QUALITATIVE AND QUANTITATIVE COMPOSITION:** Botulinum toxin type A \*10 Speywood units \*\*0.05ml of reconstituted solution. Vial of 125 units. \*Clostridium botulinum toxin A haemagglutinin complex. \*\*One Speywood unit (U) is defined as the median lethal peritoneal dose in mice (LD50). The Speywood units of Azzalure are specific to the preparation and are not interchangeable with other preparations of botulinum toxin. Excipient: human albumin 200g/L, lactose monohydrate. **CLINICAL INDICATIONS:** Azzalure is indicated for the temporary improvement in the appearance of moderate to severe glabellar lines (vertical lines between the eyebrows) seen at frown, in adult patients under 65 years, when the severity of these lines has an important psychological impact on the patient. **POSOLGY AND METHOD OF ADMINISTRATION:** Prior to injection, the product should be reconstituted. Remove any make-up and disinfect the skin with a local antiseptic. Intramuscular injections should be performed at right angles to the skin using a sterile 29-30 gauge needle. The recommended dose is 50 Speywood units (0.25 ml of reconstituted solution) of Azzalure to be divided into 5 injection sites, 10 Speywood units (0.05 ml of reconstituted solution) are to be administered intramuscularly into each of the 5 sites: 2 injections into each corrugator muscle and one into the procerus muscle near the nasofrontal angle. The anatomical landmarks can be more readily identified if observed and palpated at maximal frown. Before injection, place the thumb or index finger firmly below the orbital rim in order to prevent extravasation below the orbital rim. The needle should be pointed upward and medially during the injection. In order to reduce the risk of ptosis, avoid injections near the levator palpebrae superioris muscle, particularly in patients with larger brow-depressor complexes (depressor supercilii). Injections in the corrugator muscle must be made into the central part of that muscle, at least 1 cm above the orbital rim. The treatment interval depends on the individual patient's response after assessment. In clinical studies, an optimal effect was demonstrated for up to 4 months after injection. Some patients were still responders at 5 months (see section 5.1). Treatment interval should not be more frequent than every three months. In the event of treatment failure or diminished effect following repeat injections, alternative treatment methods should be employed. In case of treatment failure after the first treatment session, the following approaches may be considered: Analysis of the causes of failure, e.g. incorrect muscles injected, injection technique, and formation of toxin-neutralising antibodies; Re-evaluation of the relevance of treatment with botulinum toxin A. The safety and effectiveness of Azzalure in individuals under 18 years of age have not been demonstrated. **CONTRAINDICATIONS:** Azzalure is contraindicated, - in individuals with a known hypersensitivity to botulinum toxin A or to any of the excipients of the formulation; - in the presence of infection at the proposed injection sites; - in the presence of myasthenia gravis, Eaton Lambert Syndrome or Amyotrophic lateral sclerosis. **SPECIAL WARNINGS AND PRECAUTIONS FOR USE:** Azzalure should be used with caution in patients with a risk of, or clinical evidence of, marked defective neuro-muscular transmission. Such patients may have an increased sensitivity to agents such as Azzalure, which may result in excessive muscle weakness. Adverse reactions possibly related to the distribution of the effects of the toxin to sites remote from the site of administration have been reported very rarely with botulinum toxin. Patients treated with therapeutic doses may experience exaggerated muscle weakness. Injection of Azzalure is not recommended in patients with a history of dysphagia and aspiration. Patients or care-givers should be advised to seek immediate medical care if swallowing, speech or respiratory difficulties arise. The recommended dose and frequency of administration for Azzalure must not be exceeded. It is essential to study the patient's facial anatomy prior to administering Azzalure. Facial asymmetry, ptosis, excessive dermatohalasis, scarring and any alterations to this anatomy, as a result of previous surgical interventions should be taken into consideration. Caution should be taken when Azzalure is used in the presence of inflammation at the proposed injection site(s) or when the targeted muscle shows excessive weakness or atrophy. As with all intramuscular injections, Azzalure treatment is not recommended in patients who have a prolonged bleeding time. Injections at more frequent intervals or at higher doses can increase the risk of antibody formation to botulinum toxin. Clinically, the formation of neutralising antibodies may reduce the effectiveness of subsequent treatment. The effect of administering different botulinum neurotoxins during the course of treatment with Azzalure is unknown and must be avoided. This product contains a small amount of human albumin. The risk of transmission of an infection cannot be excluded with absolute certainty following the use of blood products. It is mandatory that Azzalure is used for one single patient treatment only during a single session. Particular precautions should be taken for product preparation and administration as well as for the inactivation and disposal of the remaining unused solution. Immediately after use and prior to disposal, unused reconstituted Azzalure (in the vial or in the syringe) should be inactivated with 2ml of dilute sodium hypochlorite solution at 0.55 or 1% (Dakin's solution). Used vials, syringes and materials should not be emptied and must be discarded into appropriate containers and disposed of in accordance with local requirements. **INTERACTION WITH OTHER MEDICINAL PRODUCTS AND OTHER FORMS OF INTERACTION:** Concomitant treatment of Azzalure and aminoglycosides or other agents interfering with neuromuscular transmission (e.g., curare-like agents) should only be used with caution since the effect of botulinum toxin type A may be potentiated. No interaction studies have been performed. No other interactions of clinical significance have been reported. **PREGNANCY AND LACTATION:** **Pregnancy:** Azzalure should not be used during pregnancy unless clearly necessary. There are no adequate data from the use of botulinum toxin type A in pregnant women. Studies in animals have shown reproductive toxicity at high doses (see Section 5.3). The potential risk for humans is unknown. **Lactation:** There is no information on whether Azzalure is excreted in human milk. The use of Azzalure during lactation cannot be recommended. **UNDESIRABLE EFFECTS:** The most frequently occurring related reactions are headache and injection site reactions. In general, treatment/injection technique related reactions occur within the first week following injection and are transient. Most of these reactions reported were of mild to moderate severity and were reversible. **Very common** ( $\geq 1/10$ ): Headache, Injection site reactions (e.g. erythema, oedema, irritation, rash, pruritus, paraesthesia, pain, discomfort, stinging and bruising). **Common** ( $\geq 1/100$  to  $<1/10$ ): Facial paresis (predominantly describes brow paresis), Asthenopia, Ptosis, Eyelid oedema, Lacrimation increase, Dry eye, Muscle twitching (twitching of muscles around the eyes). **Uncommon** ( $\approx 1/1,000$  to  $<1/100$ ): Dizziness, Visual disturbances, Vision blurred, Diplopia, Pruritus, Rash, Hypersensitivity. **Rare** ( $\approx 1/10,000$  to  $<1/1,000$ ): Eye movement disorder, Urticaria. **PHARMACODYNAMIC PROPERTIES:** Other muscle relaxants, peripherally acting agents. ATC code: M03AX01. The primary pharmacodynamic effect of Clostridium botulinum toxin type A is due to chemical denervation of the treated muscle resulting in a measurable decrease of the compound muscle action potential, causing a localized reduction of, or paralysis in, muscle activity. **SHELF LIFE:** 2 years. Reconstituted solution: 4 hours at between 2°C and 8°C. **SPECIAL PRECAUTIONS FOR STORAGE:** Store in a refrigerator (2°C - 8°C). Do not freeze. **MARKETING AUTHORISATION HOLDER:** Ipsen. **DATE OF FIRST AUTHORISATION:** February 2009. For a complete information, you should consult the national published prescribing information.

\*Azzalure® is indicated for the temporary improvement in the appearance of moderate to severe glabellar lines (vertical lines between the eyebrows) seen at frown, in patients below 65 years, when the severity of these lines have an important psychological impact on the patient.

# 8<sup>TH</sup> ANTI-AGING MEDICINE WORLD CONGRESS 2010

Under the High Patronage  
of S.A.S. Le Prince  
Albert II de Monaco

Dear Colleague, Dear Participant,

On behalf of the Organizing Committee, it is a great privilege to invite you to participate to the 8<sup>th</sup> Anti-Aging Medicine World Congress in Monte-Carlo from April 8 to 10, 2010, held under the High Patronage of S.A.S. Le Prince Albert II de Monaco.

The Congress's Scientific Committee has invited a distinctive array of International Experts in Anti-Aging Medicine and Aesthetic Surgery and Dermatology, to share with you, during 3 days, the latest information and techniques on these fields.

## Honouring Brazil!

Willing to develop the intercontinental exchanges and to offer the most exciting scientific content to the attendees, the Anti-Aging World Congress organisation wanted to honour Brazil, a truly amazing country. Therefore Brazilian Experts from all anti-aging disciplines will present a full One-Day Brazilian program in Aesthetic Dermatology, Surgery and Preventive and Well-aging medicine.

We are extremely proud to welcome Professor Ivo Pitanguy as the Honorary President of the AMWC 2010.

In addition, and taking into accounts the demand of the public for safe therapies to look and feel better and younger, the AMWC 2010 has prepared an important program of educational sessions combining SAFE Anti-aging practice with non-invasive aesthetic techniques.

The aim: offering to the physicians from Aesthetics, General Practice and other Specialties, a strong scientific base to prevent aging and help people who are already healthy to become even "healthier".

Following last year's success, a new Lottery Prize of an 8000 euros value and many other prizes will be available to all participants during the congress. Do not miss the prizes' draw on TEOXANE's booth, Saturday April 10 at 4.00 pm.

We would like here to renew our great thanks to the Medical Companies and Manufacturers of the Industry for their continuous support and increasing participation to the AMWC's meeting to progress forward together and contributing to its success.

Highlighting the event, it will be our pleasure to welcome the delegates to the stunning "Salles des Etoiles" of the Monte-Carlo Sporting Club for an unforgettable Gala Dinner and Show on Saturday evening.

We hope that you will enjoy the Congress and that your interaction with your colleagues from so many different countries will promote a creative exchange of ideas and will be personally rewarding for each of you.

We also hope and trust that you will enjoy your visit into the very exclusive Principality of MONACO!

Very Sincerely Yours,

The Organizing Committee

## INTERNATIONAL ACCREDITATION: CME CREDITS

The AMWC is accredited by the European Accreditation Council for Continuing Medical Education (EACCME) to provide the following CME activity for medical specialists. The EACCME is an institution of the European Union of Medical Specialists (UEMS). Please check the website for any further information: [www.uems.net](http://www.uems.net). The AMWC is designated for up to 15 CME credits. **In Europe**, this accreditation concerns all the specialists, who should turn to their national authorities in order to validate the CME points in their home European countries.

**In America**, EACCME credits are recognized by the American Medical Association towards the Physician's Recognition Award (PRA). To convert EACCME credit to AMA PRA category 1 credit, contact the AMA through their website : [www.ama-assn.org](http://www.ama-assn.org). At the end of the conference, you will receive your Certificate of Attendance.

**In France**, AMWC is accredited by the French Society of Plastic, Reconstructive and Aesthetic Surgery (SOFPCRE). For more information: [www.plasticiciens.org](http://www.plasticiciens.org)

20:30 pm "FOREVER YOUNG" GALA EVENING AT THE SPORTING CLUB OF MONACO - DO NOT MISS THIS UNFORGETTABLE EVENT !

At the Grimaldi Forum

**WOSAAM - World Society of Anti-Aging Medicine**  
**BOARD CERTIFICATIONS IN ANTI-AGING & NUTRITION**  
 MONACO GRIMALDI FORUM - Reviews April 8<sup>th</sup> and Exam April 10<sup>th</sup>, 2010

**DURING AMWC 2010**

**Self learning with CDs and an exceptional textbook**

The **WOSAAM (World Society of Anti-Aging Medicine)**, considered as the fastest growing scientific Society (over 5000 physicians from 120 nations in the clinical specialty of anti-aging medicine) proposes two **Board Certification Examinations**:

- ◆ **NUTRITIONAL MEDICINE**
- ◆ **ANTI-AGING MEDICINE**

Your position as a **WOSAAM Board-Certified** will enhance your status in the eyes of your patients and colleagues **with a titled position in a major**

**international scientific society.**

**Modalities:** Register and receive the learning material to prepare the examination.

**Previous to the exam** an expert will present a 2 hours Review on the main topics of the certification.

**NEXT EXAMINATION SESSIONS:**

MONACO, April 10, 2010  
 during AMWC

More info: [www.wosaam.org](http://www.wosaam.org)

**NUTRITIONAL MEDICINE**

**Review:** Thursday April 8<sup>th</sup> 10:00 am - 11:30 am  
**Examination session:** Saturday April 10<sup>th</sup>

**ANTI-AGING MEDICINE**

**Review:** Thursday April 8<sup>th</sup> 11:30 am - 1:00 pm  
**Examination session:** Saturday April 10<sup>th</sup>

**BECOME A WOSAAM BOARD CERTIFIED PHYSICIAN IN ANTI-AGING MEDICINE & NUTRITION! - Certification Fee: 1450 Euros**

**PRE-COURSE IN MONACO**  
 at the Grimaldi Forum

COURSES CONDUCTED IN  
**ENGLISH**

**E2E** is a unique course combining for the first time **theory & live demonstrations** in the fast growing field of Anti-Aging.

Demand for non-invasive procedures is increasing, more and more often combined with aesthetic surgery. At this crossroad we felt it is important to acquire a **strong experience and knowledge** about these techniques and tools.

**E2E Training material support** : Clear and simple fact sheets will be given out to all participants as well as a CD ROM.

**E2E Stay in touch after the course** : A smart link on internet expert-to-expert.com opened to all participants will allow you to ask question to the scientific team.

**E2E INJECTION ACADEMY**

**Wednesday April 7**

- Ageing process (video and studies)
  - Anatomy (PDF presentation)
  - Carrying out Botulinum toxin injections
  - HA injection review : from mesotherapy to ultra deep.
- Clinical cases (how to evaluate a face? Which area to inject, with which product, to fulfil the patient's demand ?

**E2E SMART LUNCHEON WORKSHOPS**

Interactive round table with Leading International Experts

**Friday April 9 - Expert Botulinum Toxin**

- The key rapport between anatomy and your injections of botulinum toxin
- Aim: Learning where the muscles are and which points of injection are used by the Experts?
- Lower face and upper face

**Saturday April 10 - Expert Deep and Volumetric injection**

**ABOUT OUR BOOK**  
**Anatomy and Botulinum toxin injections**  
 F. INGALLINA  
 P. TREVIDIC

This book is aimed at Beginners and Advanced Experts in botulinum toxin injections. We based this book on our extensive research on face anatomy carried out by our team of Experts.

We performed numerous dissections to provide high quality information on each muscle and their injection points and adequate botulinum toxin units.

Precise location of the injection is one of the most difficult goal to achieve a reliable successful treatment for each patient. Our scientific work provides this key.

The book and its 1hour DVD in 5 languages allows all physicians to understand very clearly the anatomy of the face and to improve their knowledge on reliable botulinum toxin injection.

**SPA MARKETPLACE**

**EXACTLY WHAT MEDISPA VENDORS & SUPPLIERS WANT**

Through networking and after evaluation with spa and medical aesthetics vendors and the corresponding facilities worldwide about what they really want in a trade event, we propose to put a new face on the traditional trade shows for the new reality that offers both vendors and buyers the most ROI possible on every level, both being the most cost effective, and highly profitable.

This is exactly what we have done in creating **Medical, Aesthetics, & Spa Marketplace!**

**The Marketplace Rendezvous -**

Each participant will be given 20 intimate face-to-face 20 minute selling appointments with buyers from facilities that need to buy their products. Buyers and vendors will be pre-interviewed to give maximum value by matching up both parties for each meeting.

**The Spa & Medical Aesthetics Marketplace -** A trade space with a limited number of vendors dedicated to offering the many categories and products the attending buyers want and need to buy.

Ask the organisers for more details about the Marketplace opportunity !

## CONGRESS LOCATION

The Principality of Monaco is located on the French Riviera, about 25 minutes from Nice. Its exceptional location allows it to enjoy 310 days of sunshine per year. Monaco's exceptional location, between mountain and sea, its gardens, its entertainment, its athletic and cultural events all qualities which make it an unforgettable destination. The Grimaldi Forum, close to all the hotels, is ideally located by the seaside. The average temperature in April is 20-22°C and the weather is often sunny.

## VISA INFORMATION AND OFFICIAL LETTERS OF INVITATION

The passport and visa requirements for persons visiting Monaco as tourists are the same as for France. For further details, contact any French consulate in your country. Official letters which may be necessary in some countries for administrative reasons (VISA) can be sent by e-mail: log on [www.euromedicom.com](http://www.euromedicom.com). These letters do not engage the congress secretariat to any financial support neither obligation or responsibility relative to the Visa.

## EXHIBITION

Over 6500 m2 exhibit (250 exhibiting companies) of interest in Aesthetic Dermatology and Medicine, Plastic and Cosmetic Surgery, Anti-Aging Medicine, Nutrition, Well Being, Medical Spa, etc. will be on permanent display.

## AIR TRANSPORTATION

**IDENTIFIER CODE: 0826S** - Valid for travel from **03/04/2010 to 15/04/2010**

The airlines of **SKYTEAM**, Official Alliance Network for our event, offer attractive airfares for participants. SKYTEAM comprises 10 leading international airlines: Aeroflot, Aeromexico, Air France, Alitalia, Continental, CSA Czech Airlines, Delta, KLM, Korean Air, Northwest Airlines, serving 728 cities in 149 countries with over 15 000 flights daily. To benefit from these special offers, link up with [www.skyteam.com/globalmeetings](http://www.skyteam.com/globalmeetings) and quote the Identifier Code. Through this site you can also access the schedules of all SkyTeam partners to plan your flights on the airline of your choice.

**AIR FRANCE:** Discounts are applied to a wide range of airfares, in all classes of travel (Espace Première [First], Espace Affaires [Business] and Tempo [Coach]) on all flights of the Air France worldwide network. To access the preferential fares granted for this event, use this link:

[www.airfrance-globalmeetings.com](http://www.airfrance-globalmeetings.com).

This present document of the event serves to justify the application of the preferential airfare. Keep it with you as you may be asked for it at any point of your journey. To locate your nearest Air France sales point, consult: [www.airfrance.com](http://www.airfrance.com)

## LANGUAGES - SIMULTANEOUS TRANSLATION

The official congress languages are English and French.

Simultaneous Translation in **French, English, Spanish, Italian** and **Russian** will be provided in the 2 main rooms. French/English in the other rooms.

## "AMWC 2010 GRAND PRIX" LOTTERY

An entertaining **LOTTERY**, will offer the participants of the **AMWC 2010** the possibility to win two journeys of respectively 5000 euros and 3000 euros and many other prizes (like full supported Congress Packages including hotel and registration).

## WOSAAM MEETING: Open to Medical Scientific Societies and Associations Representatives

The **WOSAAM - World Society of Anti-Aging Medicine** will organize a private meeting for representatives of all medical national and International scientific associations involved in the field of **Well-Aging medicine**.

This meeting will take place during the Anti-Aging Medicine World Congress 2010 on **Friday April 9<sup>th</sup>** at the congress place.

**IMPORTANT:** To join this private meeting it is necessary to be the President or an officially mandated representative of the medical or scientific Association. To get your INVITATION, please send your request and personal information by fax: **+331 56 837 805** or email: [contact@wosaam.org](mailto:contact@wosaam.org)

## HOTELS

Hotels close to Grimaldi Forum has been booked especially for the AMWC delegates at negotiated prices through our partner Conferencia Travel.

On-line reservation is available at [www.euromedicom.com](http://www.euromedicom.com) - Hotels informations: Tel +33 (0)1 45 55 85 30 - E-mail : [hotels@conferenciatravel.com](mailto:hotels@conferenciatravel.com)

For any change or cancellation, contact Conferencia Travel (special rates only available through Conferencia Travel).

Booking cannot be processed without total prepayment - All prices are breakfast and taxes included.

Other hotels will be proposed later. Please regularly log on: [www.euromedicom.com](http://www.euromedicom.com)

## REGISTRATION FORMALITIES

### Registration confirmation

Each attendee registered in advance will receive a confirmation of registration by the congress office. Please bring a copy of your registration confirmation letter to on-site registration to speed up the process. If you do not have a confirmation letter and there is no record payment receipt by the congress office, you will be required to provide payment on-site, even if you think a payment was remitted previously. Any duplicate payment resulting will be resolved following the meeting.

### On-site registration and badge and congress material pick-up

The congress office registration desk will be located in the Grimaldi Forum at the Diaghilev level. Please keep in mind that on-site-registration can be time consuming. Everyone is strongly encouraged to register prior to March 15, 2010 deadline in order to avoid delays, and having to pay a higher registration fee. You are reminded to bring your confirmation letter with you when you pick up your badge and meeting material. We recommend that attendees allow sufficient time to pick up their badges prior to the meeting, to avoid the last minute lines that may result in a missed session.

### Please wear your badge!

Attendees are required to pick up and wear their conference badges at all times throughout the meeting. No access into the Venue and Congress sessions will be allowed without wearing the badge. This allows us to ensure adequate security for your safety. If you misplace your badge, a 150 Euros fee will be charged to replace it.

### Cancellation

We will refund the complete registration fee with a 50 Euros processing fee if written cancellation reaches us before March 5, 2010. We will refund 70 % of the total payment if written cancellation reaches us before March 26, 2010. After this date no refund will be possible. No refund will be made for no-shows or early check-out date.

## GROUND TRANSPORTATION

Between **Nice airport and Monaco** a free shuttle service will be provided by the organization to all participants from Nice airport (Terminal 1 and 2) on April 7th and 8th. In **Monaco** by showing their badge, AMWC delegates will have free access to the bus network in Monaco all the meeting long (April 8, 9 and 10).

## FOREVER YOUNG... THE GALA EVENING YOU WILL REMEMBER!!!

For this 8<sup>th</sup> edition of the AMWC, we have again the exceptional chance to organize the Gala Evening at the Salle des Etoiles of the Sporting Club of Monaco. on Saturday April 10<sup>th</sup>.

We have prepared for you an unforgettable show you will enjoy around a delicious dinner. After the Show, let's dance.... and feel Forever Young!!!
